

CLAWBACKS MAY BE IMPOSED ON, BUT NOT LIMITED TO, THE FOLLOWING MEDICATIONS:

- Accu-Chek (blood sugar meter)
- Acyclovir (treats herpes, chickenpox, shingles)
- Aktob (treats eye infections)
- Albuterol (treats asthma, C.O.P.D.)
- Alocril (treats asthma)
- Alprazolam (treats anxiety)
- Amiodarone (treats and prevents irregular heartbeats)
- Amitriptyline (treats depression, anxiety, A.D.H.D., bipolar)
- Amlodipine (treats high blood pressure)
- Amoxicillin (antibiotic)
- Amphetamine (treats A.D.H.D., narcolepsy, obesity)
- Anastrozole (treats breast cancer, menopause)
- Atenolol (treats cardiovascular disease)
- Atorvastatin (prevention of cardiovascular disease)
- Azelastine (treats rhinitis)
- Azithromycin (treats ear infections, strep throat, pneumonia, intestinal infections)
- Bactrim (antibiotic)
- Benazepril (treats hypertension, congestive heart failure, heart attacks)
- Benzonatate (oral cough suppressant)
- Betamethasone (steroid)
- Bupirone (treats anxiety)
- Bystolic (treats hypertension)
- Carvedilol (treats congestive heart failure, heart attacks)
- Cefadroxil (bacterial antibiotic)
- Cefdinir (bacterial antibiotic)
- Cephalexin (bacterial antibiotic)
- Cetirizine (antihistamine)
- Ciprofloxacin (antibiotic)
- Citalopram (antidepressant)
- Clindamycin and Benzoyl Peroxide (treats acne)
- Clindamycin (bacterial antibiotic)
- Clonazepam (treats seizures, panic disorder)
- Clonidine (treats high blood pressure, A.D.H.D., anxiety, migraine)
- Clopidogrel (treats heart disease)
- Cyanocobalam (synthetic Vitamin B)
- Cyclobenzaprine (muscle relaxer)
- Cytomel (treats hypothyroidism, myxedema coma)
- Depo-Testosterone (treats male hypogonadism, breast cancer)
- Diazepam (treats anxiety, muscle spasms, seizures)
- Dicyclomine (treats intestinal hypermotility, I.B.S.)
- Diltiazem (treats hypertension, angina pectoris, arrhythmia)
- Doxazosin (treats high blood pressure, benign prostatic hyperplasia)
- Doxycycline (treats bacterial infections, acne)
- Duloxetine (treats major depressive disorder, anxiety)
- Enalapril (treats hypertension, diabetic nephropathy)
- Escitalopram (antidepressant)
- Estradiol (treats menopause)
- Eszopiclone (treats insomnia)
- Feosol (iron supplement)
- Ferrous Sulfate (iron supplement)
- Flonase (nasal spray)
- Fluconazole (antifungal)
- Fluocinonide (treats eczema, dermatitis)
- Fluoxetine (anti-depressant)
- Fluticasone (nasal spray)
- Folbee (Vitamin B-6, Vitamin B-12, folic acid supplement)
- Folic acid (supplement)
- Furosemide (treats heart failure, liver scarring, kidney disease)
- Gabapentin (treats epilepsy, neuropathic pain, hot flashes)
- Gemfibrozil (treats high cholesterol and triglyceride levels)
- Gentamicin (bacterial antibiotic)

CLAWBACKS MAY BE IMPOSED ON, BUT NOT LIMITED TO, THE FOLLOWING MEDICATIONS:

Gianvi (contraceptive)	Methocarbamol (muscle relaxer)
Glimepiride (antidiabetic drug)	Methylphenidate (treats A.D.H.D., narcolepsy)
Glipizide (antidiabetic drug)	Metolazone (treats congestive heart failure and high blood pressure)
Guaifenesin (expectorant)	Metoprolol (treats high blood pressure, chest pain, fast heart rate)
Hydrochlorot (treats high blood pressure, diabetes insipidus)	Metronidazol (antibiotic)
Hydrocodone/APAP (pain reliever)	Minivelle (treats menopause)
Hydroxyz (treats anxiety, allergic conditions)	Mirtazapine (antidepressant)
Ibuprofen (treats pain, inflammation)	Mometasone (treats eczema, psoriasis)
Indomethacin (treats fever, pain, stiffness, inflammation)	Montelukast (treats asthma, seasonal allergies)
Invokamet (diabetes treatment)	Mupirocin (antibiotic)
Irbesartan (treats hypertension)	Naproxen (treats fever, pain, stiffness, inflammation)
Isosorbide (treats angina pectoris)	Nitrofurantoin (treats bladder infections)
Januvia (treats diabetes)	Nortriptyline (antidepressant)
Lamotrigine (treats epilepsy, bi-polar)	Nystatin (antifungal)
Lantus (treats diabetes)	Omeprazole (treats excess stomach acid)
Latanoprost (treats glaucoma)	Ondansetron (prevents nausea, vomiting)
Levetiraceta (treats epilepsy)	Oxcarbazepin (treats epilepsy)
Levocetirizi (antihistamine)	Oxybutynin (treats overactive bladder)
Levofloxacin (treats bacterial infections)	Oxycodone/APAP (pain reliever)
Levothyroxine (treats thyroid hormone deficiency)	Pantoprazole (treats excess stomach acid)
Lexapro (anti-depressant)	Paroxetine (antidepressant)
Lisinopril and Hydrochlorothiazide (treats hypertension)	Penicillin (antibiotic)
Lisinopril (treats high blood pressure, heart failure)	Percocet (pain reliever)
Lithium (treats bipolar, depression, schizophrenia)	Pramipexole (treats Parkinson's disease, restless leg syndrome)
Loratadine (antihistamine)	Pravastatin (treats high cholesterol)
Lorazepam (treats anxiety, trouble sleeping, seizures)	Prednisone (treats inflammatory diseases, autoimmune diseases)
Losartan (treats high blood pressure)	Prednisolone (treats inflammatory diseases, autoimmune diseases)
Losartan and Hydrochlorothiazide (treats high blood pressure)	Promethazine/Codeine (antihistamine)
Lovastatin (treats high cholesterol)	Ramipril (treats high blood pressure)
Meloxicam (treats inflammation, arthritis)	Ranitidine (treats excess stomach acid)
Memantine (treats Alzheimer's disease)	Restasis (treats chronic dry eye disease)
Metformin (treats diabetes)	

CLAWBACKS MAY BE IMPOSED ON, BUT NOT LIMITED TO, THE FOLLOWING MEDICATIONS:

Sertraline (antidepressant)	Ventolin (treats wheezing, asthma, C.O.P.D.)
Simvastatin (treats high cholesterol)	Viagra (treats erectile dysfunction)
Singulair (treats asthma, seasonal allergies)	Vigamox (antibacterial)
SMZ/TMP (antibiotic)	Vitamin D (supplement)
Sodium Chloride (sodium supplement)	Vyvanse (treats A.D.H.D., narcolepsy, obesity)
Spironolactone (treats heart failure, liver scarring, kidney disease)	Warfarin (anticoagulant)
Sprintec (contraception and acne treatment)	Xopenex (treats asthma, C.O.P.D.)
Sulfameth/Trimeth (antibiotic)	Zaleplon (treats insomnia)
Sumatriptan (treats migraines, headaches)	Zolpidem (treats insomnia)
Suprep (laxative)	
Synthroid (treats thyroid hormone deficiency)	
Tamiflu (treats influenza A and B)	
Tamsulosin (treats benign prostatic hyperplasia)	
Temazepam (treats insomnia)	
Terazosin (treats enlarged prostate)	
Terbinafine (antifungal)	
Tizanidine (treats muscle spasms, multiple sclerosis)	
Tobramycin and Dexamethasone (treats eye infections)	
Topiramate (treats epilepsy)	
Tramadol (pain reliever)	
Tranex (treats and prevents excessive blood loss)	
Trazodone (antidepressant)	
Tretinoin (treats acne)	
Triamcinolone (treats eczema, psoriasis, arthritis, allergies, lupus)	
Triamterene and Hydrochlorothiazide (treats high blood pressure)	
Vagifem (treats menopause)	
Valacyclovir (treats herpes)	
Valsartan/hydrochlorothiazide (treats high blood pressure)	
Valsartan (treats high blood pressure)	
Vaniqa (treats unwanted facial hair in women)	
Venlafaxine (treats depression, anxiety, panic disorder)
